`Rant/Vent` **My daughter is starting to understand.**

She's 4, I'm 18. She's starting to understand that we don't have very good living conditions, that she doesn't have nearly as many toys as her friends. She's starting to understand that sometimes, mammy and daddy eat what's left of her food instead of cooking, and she's never had mcdonalds.

Her birthday just passed, we couldn't afford to get her anything so we went to feed

About Community

/r/Parenting is the place to discuss the ins and out as well as ups and downs of child-rearing. From the early stages of pregnancy to when your teenagers are finally ready to leave the nest (even if they don't want to) we're here to help you through this crazy thing called parenting. You can get advice on potty training, talk about breastfeeding, discuss how to get your baby to sleep or ask if that one weird thing your kid does is normal.

How to select subreddits for you research?

- Use search http://www.reddit.com/reddits
- Use your knowledge of the platform
- Identify subreddits that are most active related to your keyword

How to get Reddit data?

- https://files.pushshift.io/reddit/ (thanks to Jason Baumgartner). Donations!
- Use Reddit API by building an URL
  https://www.reddit.com/r/{subreddit}/{listing}.json?limit={count}&t={timeframe}

  timeframe = hour, day, week, month, year, all
  listing = controversial, best, hot, new, random, rising, top
  https://www.reddit.com/r/depression/top.json?limit=100&t=year

How to get Reddit data?

- Use tools to access API. Most popular:
  a. PRAW (Python). Limitation: can't extract submissions between specific dates
  b. RedditExtractoR (Ivan Rivera)
     https://cran.r-project.org/web/packages/RedditExtractoR/RedditExtractoR.pdf
  c. Pushshift https://github.com/pushshift/api (Jason Baumgartner)
     https://api.pushshift.io/reddit/search/comment/?q=science
  d. We will use pushshiftR package (Nathan Cunningham) to access Pushshift API in R
     https://github.com/nathancunn/pushshiftR
